

PERSONS DIE
TRAIN RUNS
AUTOMOBILE

Train is Derailed and
Fifteen More are
Injured

(By The Associated Press)

COLUMBUS, O., March 30.—Seven persons are dead tonight and fifteen lie injured in hospitals as the result of the wrecking of Big Four Train No. 11, which crashed into an automobile at a grade crossing north of here early today, "buckled" from the impact and the sudden application of air-brakes and catapulted from the rails.

The train composed entirely of steel Pullman cars, struck the automobile, killed its three occupants, a woman and two small children and hurled it along the wooden cross ties more than one hundred yards before the engine and four of the coaches turned over on their sides. An hour behind schedule the train, one of the most luxurious operated by the railroad was entering the last lap of its long journey from Boston to Cincinnati, when the accident occurred. Its engineer, Andrew Green, of Cleveland, said tonight that he was running 70 miles an hour when the automobile was driven on to the tracks twenty feet ahead. He applied the brakes immediately he said.

The driver of the car was unable to see the train, because of a building at the corner and the crossing is unguarded by a watchman.

Eye witnesses of the crash said that the engine and baggage car left the tracks as soon as the locomotive struck the automobile. The train continued, they said, in a cloud of dust and splinters from the wooden cross ties and finally leaped from the right-of-way, one of the cars hurling completely over the locomotive.

Scenes of confusion greeted the first to reach the mass of twisted steel. Many of the passengers were still in their berths and others preparing to arise. Many were assisted from the windows and apertures cut in the cars and others more seriously injured were carried out by rescue parties hastily formed.

Ambulances and private automobiles removed the dead and seriously injured while others rushed first aid on the scene and continued on relief train made up in Columbus.

Mrs. F. S. Heminger, wife of a local attorney who with her two small children, met death in the automobile, had started on an errand in the country. She had planned to meet her husband at his office later and he was waiting for her when he received a request to identify the bodies of his family at a morgue.

Besides the three occupants of the automobile, the dead were two members of the train crew, one passenger and a negro who was riding "blind baggage" on the train.

MOTOR BANDITS
KILL PAYMASTER

(By The Associated Press)

NEW YORK, March 30.—Capping a series of bold robberies in Greater New York within the last few days, five motor bandits today shot and killed Thomas R. Phillips, paymaster of the Duncan Construction Company, in Long Island City and escaped with a \$4,000 payroll.

The fatal bullet passing through Phillips' body broke a window in the automobile from which he had just stepped and dashed fragments of glass into the eyes of his companion, John G. Kane, of Brooklyn, employed as a superintendent by the company. It was feared tonight that Kane was acting as guard, would lose his sight.

Grabbing the payroll, the bandits fled toward Brooklyn, where their car later was found abandoned.

FARMERS HOLD THE
BALANCE OF POWER
I. C. EXECUTIVE SAYS

Charles H. Markham Talks
Before Traffic Club
of Chicago

(By The Associated Press)

CHICAGO, March 29.—Farmers of the country hold the balance of power between the railroads and their enemies, Charles H. Markham, President of the Illinois Central Railroad, declared tonight in an address before the Traffic Club of Chicago.

"I believe that the vast majority of business men of this country are sound on the railway question," said Mr. Markham, who predicted that in the next congress there would be an effort to repeal the transportation act which he declared would be a mistake.

"The leaders of some of our labor organizations are outspokenly in favor of government ownership and it is to be presumed that they have a large following," he said. "Therefore it seems to me that our agricultural population has the balance of power and will settle the railway question. If they should throw their great influence on the side of nationalization, our railroads will be nationalized but the farmers will never do that if they are given the facts in regard to the railroads and if the radical propaganda about the railroads is fully answered for their benefit."

"Agriculture is founded upon transportation. Impair the ability of the railroads to furnish adequate service and immediately you injure the entire agriculture industry. Some of the self-appointed spokesmen for the farmers pursue a policy toward the railroads that is very antagonistic to the welfare of those in whose behalf they claim to speak."

In regard to what he called the old charge of "watered stock" Mr. Markham said that the Interstate Commerce Commission's tentative valuation of the roads in 1920 was \$2,000,000,000 in excess of the outstanding capitalization at that time which he said showed that the roads were under-capitalized.

Another misrepresentation he said, was that transportation act constituted a guarantee of railroad earnings.

"If the guaranty were there, the railroads would not be slow to find it out," he said.

"The transportation act represents the most constructive of railroad legislation," said Mr. Markham. "We must give the act a fair trial under normal conditions."

HIGH CHURCH MAN
IS FOUND DEAD

(By The Associated Press)

MADRID, March 30.—Javier Vales Faldo, nominated by King Alfonso to become bishop of Salamanca, which includes the patriarchate of Occidental India and the chaplain-generalship of the Spanish army, was found dead this morning. His jugular vein had been severed with a razor.

It is asserted by his friends that difficulties had arisen relative to his nomination which was recently sent to the Vatican for approval.

The prelate was confessor to the king and queen and was a great favorite among his colleagues. He was born at Lallina, near Pontevedra and was the author of many works, especially bearing of Galician emigration.

BARBERS UNION
SEEKS INJUNCTION

(By The Associated Press)

SIoux CITY, Iowa, March 30.—Injunctions to restrain proprietors of two barber shops from lengthening their hours of work and cutting prices, are asked by the Barbers' Union, Local No. 22, in two petitions filed in district court today. The petitions assert that the two defendants reduced the price of a shave to 20 cents and all fifty cent items to 35 cents in violation of an agreement they are said to have made with the union. It also is charged that they are opening their shops one hour earlier than the time fixed by the union.

WILL BANISH STRIKERS
WHO REFUSE TO WORK

Essen, March 30.—A proclamation by General DeGautte, commander in chief of the occupational forces ordering all the striking railroad officials and trainmen to resume work under the penalty of expulsion, was posted throughout the Ruhr and Rhineland today.

The order affects 500,000 Germans as the families of those refusing to return to their posts will accompany them into the unoccupied Germany.

TWO FIREMAN DEAD,
SIXTEEN INJURED
NEW YORK CITY FIRE

(By The Associated Press)

NEW YORK, March 30.—Four century old buildings, lying in the center of the city's oldest manufacturing district, were destroyed today by fire. Under the crumbling rough stone walls two firemen met death and sixteen of their comrades were injured. The property loss was estimated at \$750,000.

Discovered shortly after 4 p. m. in a 26th street structure occupied by a paper box factory and a wet wash laundry, the fire soon spread to adjoining buildings, caught chemicals in lithographic and printing establishment and was raging in four buildings when the first fire apparatus arrived. At their height, the flames threatened the Bellevue hospital buildings a short block away and preparations were made to remove patients.

Families in tenements near the fire were compelled to leave their homes because of the smoke. Infants were left in their cribs by frightened parents and were carried out by policemen.

Julius Spanier and William Aiello were leading a line of hose to the center of the burning structure when the walls began crumbling. One of their comrades was buried in a pile of debris. Aiello tried to pull him out and he too was buried. Then there came a dull explosion, the entire inside of the building collapsed and Spanier fell. Six of the thirteen who were injured suffered severe fractures.

Aiello and Spanier died in Bellevue hospital. Aiello's wife arrived at his cot a moment after he died and collapsed.

Spanier's wife and mother were with him when he died, but he had not regained consciousness. The firms whose plants were destroyed are Universal Circle Paper Box company; Triangle Sheet Metal company; and the Madison Square Wetwash laundry, all in 24th street, and the J. H. Tooker Printing and Lithograph company in 27th street. Plants of four other concerns were damaged.

More than thirty engines and truck companies and 300 firemen were engaged in fighting the blaze.

MISSING BOYS
FOUND LAST NIGHT

(By The Associated Press)

SAN BERNARDINO, Cal., March 30.—Richard Jensen, 5 years old, and Dean Mecham, four years old, missing since Saturday were found tonight. The Jensen boy was alive, but unconscious. The Mecham boy was dead.

The two lads had crawled into a wooden show-case in the workroom of a building in the business district and had been smothered. A trap door had closed behind them and they could not open it. At first it was believed that both boys were lying on the Jensen's boy's body they detected signs of life. He was rushed to a hospital where physicians said he would probably recover.

It had been thought that the boys had been kidnapped and many gypsy camps in Southern California were searched. More than one thousand men, women and boys searched most of the week for the boys.

OLD MAN WINTER
PUTS THE KIBOSH
ON EASTER OUTFITS

Recommends Fur Coats,
Mufflers and
Galoshes

(By The Associated Press)

CHICAGO, March 30.—While fur coats, woolen mufflers and galoshes have been given little prominence in the Easter outfit of the fashionably dressed woman, weather predictions tonight indicated that they would be much more appropriate for Chicago's Sunday promenaders than the spring outfit.

Fair and colder with a temperature about 12 above zero was promised for tonight, continued cold and a northwest wind for tomorrow and Sunday, "probably fair and not quite so cold." At the weather bureau however, it was said that "not quite so cold" would probably mean somewhere between 20 and 32 degrees.

Weather bureau records showed that the average Easter temperature for the past twelve years has been 47, sixty being reached in 1918 and 1922, while Easter Sunday in 1920 with a temperature of 31 was the coldest for the twelve years.

GREATER LOVE HATH
NO MAN THAN THIS

(By The Associated Press)

CHICAGO, March 30.—In a heroic but futile effort to save Edward Carson, 37 years old, from suffocation in the fumes of silage in a salvage elevator of the Pyramid Milling company today, Charles Brill, 59 years old, a fellow employee, was himself asphyxiated and a fireman called to the scene was partly overcome in removing the two bodies.

Carson, who was working in the silage pit, felt himself suffocating and shouted for help. Brill, working above him, secured a rope and descended into the pit where the residuum from spoiled grain is reduced to silage. Brill succeeded in placing the rope about Carson's shoulders but was suffocated as he attempted to pull his fellow employee to safety. A pulmotor squad was summoned and made a futile effort to revive the two men. An inquest into their deaths will be conducted tomorrow.

WAR VETERAN
FREED OF CHARGES

(By The Associated Press)

NEVADA, Iowa, March 30.—John Cenic, head of the Iowa department of the veterans of foreign wars and a non-commissioned army officer for the past twenty years, was freed of charges in connection with the \$100,000 Ames Armory fire on December 27, by Judge Sherwood. Clock this afternoon upon motion of defense attorneys that the case not be given to the jury.

Approximately 100 witnesses testified for the state and none for the defense. The motion to take the case away from the jury for lack of prosecution was made immediately upon the conclusion of the final arguments by the state.

RAIN STOPS GOLF
GAME OF PRESIDENT

(By The Associated Press)

ST. AUGUSTINE, Fla., March 30.—Rain prevented President Harding today from duplicating Monday's feat of thirty-six holes of golf.

The visit of the president and the members of his vacation party to St. Augustine will come to an end late tomorrow. Bidding good bye to this city where the longest stop of the vacation has been made the presidential party will leave by special train for Augusta, Fla., arriving there early Sunday morning. The length of the stay there has not been decided but it may be until the end of the week.

GRAND JURY PROBE
OF HOUSE OF DAVID

Lansing, Mich., March 30.—A grand jury investigation of the Israelite House of David was demanded in a resolution passed by state officers and the legislative committee of the W. C. T. U. meeting here today.

BROTHER OF DEAD
GIRL ASKED FOR
GOVERNMENT JOB

Francis Keenan Admits He
Telephoned to Daugherty's Son

(By The Associated Press)

NEW YORK, March 30.—Renewing his examination of the relatives of Dorothy Keenan, slain model late today, Assistant District Attorney Pecora, announced that Francis Keenan, her brother, had admitted he was the man who telephoned Draper that Daugherty, son of Attorney General Daugherty, after the girl's death and asked him to make good a promise to get him a job in the United States department of justice.

Francis Keenan, who was the first witness called, was questioned for more than an hour and a half by Mr. Pecora and Police Captain Carey of the homicide bureau.

For the first time since the beginning of the investigation of the murder, an official stenographic record of the examination was taken.

Mr. Pecora announced he would continue his examination later into the night if necessary and that he would devote an hour at least to questioning each member of the Keenan family, all of whom were present in the criminal court building this afternoon.

Francis Keenan was accompanied by his mother, his brother, John, his sister, Mrs. Helen Whitson, and by the family attorney, Daniel Murphy, all of whom succeeded in entering the private offices of the district attorney without the knowledge of scores of reporters and photographers who had been awaiting their arrival since morning.

Shortly after the examination began, Mr. Pecora announced he would re-examine J. Kearney Mitchell of Philadelphia, the girl's wealthy admirer and John H. Jackson, confidential counsel to Mitchell tomorrow.

HOG RECEIPTS BREAK
RECORDS AT OMAHA

(By The Associated Press)

SIoux CITY, Iowa, March 30.—More hogs have been received at the Sioux City stock yards this month than in any one month in the history of the market. Including today's run, 321,849 head have been received this March. Saturday's run is expected to swell the total to 335,000 hogs. More than 4,500 cars were used in transporting the animals to market. Truck deliveries totaled nearly 26,000 head. The former record for the yards for a month was hung up January 1917, when 314,526 hogs arrived. The 300,000 mark had been passed but twice here before.

RELIGIOUS CENSUS
AT NORTHWESTERN

(By The Associated Press)

CHICAGO, March 30.—While Northwestern University is a Methodist Episcopal Educational institution a religious census just completed shows that only about one-third of the students are of the Methodist faith, according to figures made public today. There are 1,326 Methodist students according to returns from 78 per cent of the total enrollment. Roman Catholics come second with 690 while those of Presbyterian faith number 651 and of Jewish 534. Lutherans are fifth with 447. There were 633 students who said they had no religious preference.

WITNESSES TELL
OF RAIN OF LEAD
FROM LESTER MINE

Assert First Shots
Came from Hidden
Machine Gun

(By The Associated Press)

MARION, Ill., March 30.—A rain of lead suddenly poured on a peaceful countryside from a hidden machine gun and high powered rifles by mine guards killed the first man, an unarmed union miner, slain during the outbreak, witnesses for the defense testified today at the Herrin riots trial.

Until the importation of armed guards about June 15, last, to patrol the mine of the Southern Illinois Coal company while it was being operated by non-union men, witnesses declared that there had been no trouble since the shutdown on April 1.

"We have come down here to work this mine, union or non-union," Lucien Tucker, one of the eighteen witnesses who took the stand during the day quoted C. K. McDowell, superintendent of the mine as saying to him.

"We're going to work it if we have to work it in blood. Tell the union men to keep away."

Tucker asserted that McDowell then showed him two rapid fire rifles which worked from the hip, a reel gun operated on a tripod and about a ton of ammunition. He said the mine superintendent told him the guns would fire sixty shots a minute.

Other witnesses accused the guards of holding up, assaulting and robbing persons passing near the mine on the public road. Some said they had been threatened with death unless they kept away from the mine property.

Two witnesses swore they had seen guards place a gun in position on top of the mine dump and conceal it behind a clump of bushes on June 21. They testified that two or three volleys were fired from this gun before they heard any shots fired from outside the mine.

Otis Alexander, a former member of the union and now a mine weighman, testified that he had overheard a conversation on a party line telephone between McDowell and W. J. Lester, owner of the mine, the night of June 20 in which Lester warned McDowell that he had heard that three or four hundred men were on their way to attack the mine.

"Let them come. We're ready for them. But they won't all get here," the witness quoted McDowell, who was slain two days later, as saying.

Alexander testified that the next night, after the shooting at the mine he had heard Lester telephone again to McDowell, telling him:

"Put up a white flag and negotiate a truce with the union men while you entrench and I try to get the militia here."

SUPERVISORS RESENT
ALLEGED REFERENCE

(By The Associated Press)

WAUKEGAN, Ill., March 30.—Several members of the Lake county board of supervisors today censured State Senator Rodney B. Swift, of the eighth district who lives in Lake county, for his alleged reference to them as "sleazy gamblers" and politicians because of their endorsement of Governor Snell's proposed \$100,000,000 hard road bond issue. Supervisor Wobbi moved to throw the communication, addressed to Kane county, into the waste basket, but withdrew the motion when Supervisor Paddock although saying he was in sympathy with it, said he would move to table it "so as to lower the dignity of board. The board members said they approved the bond issue in order to give the people a chance to vote on it.

UMBRELLA MIKE
WILL GO BEFORE JURY

Chicago, March 30.—Michael (Umbrella Mike) Boyle, Chicago labor chief, has sent word to Sheriff Ahlstrom at Waukegan, Ill., as reported today that he would appear there Monday to go before the grand jury investigating charges of tampering with the jury that acquitted Governor Small of conspiracy last year. Boyle is said to be ill in a hospital and Waukegan officers were unable to find him to serve him with a summons.

GENERAL SURPRISE
FOLLOWS DECISION
OF THE COMMITTEE

Archbishop Given Clemency
—Vicar General
to Die

(By The Associated Press)

MOSCOW, March 30.—The action of the central executive committee in commuting the death sentence against Archbishop Zepeliak and denying clemency in the case of Vicar General Butchkevich came so quickly as to cause general surprise.

The decision was taken at a meeting last night, and so unexpected was it that one of the members of the defense counsel declared today he knew nothing of it until he read the morning newspapers. The formal appeal upon which the committee acted requested clemency on the following three claims:

First—That the priests were not enemies of the government nor were they counter-revolutionists; their only disobedience was due to the decree separating church and state, and the fact was that they themselves, as citizens, came into conflict and opposition with the church canons.

Second—That they had never been accused during the time of the revolution of any criminal activity and that there was no accusation that they were connected with the counter-revolutionaries.

Third—In case they were considered dangerous it was not necessary to carry out the death sentence as by imprisonment they could be put in a position where they were not dangerous.

The appeal cited the ages of the two defendants, stating that Archbishop Zepeliak was "over fifty" and Vicar General Butchkevich, fifty-five.

From the tone of editorials in the official newspapers Pravda and Izvestia in which both the friends and foes who appealed against the sentences were roundly censured, it might appear that in making its decision the committee intended to force the principle of Russia's right to demand obedience to the Russian laws.

The two defendants, receiving appeals of clemency from friends of the soviet regime in several countries as well as protests from various ecclesiastical organizations and these the Pravda takes up in an editorial opening of the "troubling statement."

"An awful thing has happened in the kingdom of atrocities—soviet Russia."

In a serious vein the newspaper declares that the tribunal is defending the rights of the laboring classes whereas the bourgeois system, "ruled for centuries by the priests," was said to have committed much worse atrocities against the laboring classes.

JAILER CONVICTED OF
SELLING NARCOTICS

(By The Associated Press)

CHICAGO, March 30.—Evans Isaac, a jailer in the Will county jail at Joliet, Illinois, was indicted by a federal grand jury here today on a charge of possessing and selling narcotics. The federal indictment was returned by Judge Adam C. Cliffe.

Walter Jones, alias Henderson, a government prisoner held in the Will county jail in connection with a narcotic charge made the complaint a few days ago that he had bought narcotics from Isaac for \$200. William Sullivan, a friend of Jones, is said to have testified that he bribed the jailer to get narcotics for Jones. Isaac testified in his own behalf, said to have been aided in support of Isaac, Assistant District Attorney Waugh conducted the investigation.

The only good thing about this sudden cold snap is that it cannot possibly last long.

One unfortunate thing about all this talk of a sugar corner and increased price is that it stimulates the demand and helps strengthen the very situation which people complain about.

Anyhow it is consoling to know that the Morgan county oil and gas field has enough in it to place in the record of the state geological survey. There are still those who believe that a worth while gas and oil field field will yet be found in this vicinity.

The Carrollton Gazette suggests that if people of certain communities could only be made to feel sure that they would speed-

ily get hard roads, their opposition to the proposed bond issue would be quickly changed to enthusiasm. There is a good deal of selfishness in the consideration of all these problems.

The suggestion of the consolidation of the C. B. & Q. and the C. P. & St. L. stations with the C. & A. would mean an approach to a union passenger station. Such a consolidation, however, would make the day more distant for a real union station, one with larger facilities, taking care of all the passenger traffic that comes to and originates in Jacksonville.

The prices of some building materials have advanced so sharply in the last three months that there is danger of putting a stop to building improvements. In most of these lines the manufacturers haven't the excuse of increased cost. They are simply taking advantage of the situation. "Taking advantage" may not be the proper term if a later slump comes because of the high prices.

STRANGE DOINGS

NEA

We wonder how Sherlock Holmes would have gone about solving this queer mystery: In England a family is receiving a weekly registered letter without contents, from a missing member.

The facts, Mr. Holmes, are these: Steven Cummings, auto tester, vanished last September from his home in London. A month later his wife received an envelope in his handwriting, thru the mails. Inside was some money, but no message.

Thereafter, week after week, Mrs. Cummings got the same thing. Never a message inside,

BERTON BRALEY'S DAILY POEM
WASTED LIVES?
By Berton Braley

(Captain Eddie Rickenbacher, American ace, says that the lives lost in the World War were lost in vain.)

NOT quite in vain—the seas that use do be
Full of a lurking death we could not see
Are clear again. And that blood-drenched expanse
Of fighting front that seared the face of France
Is growing green once more. The world is free
Of that black blight of Prussian mastery
Which threatened all that we held good and fair.
They died, who fell to save us from despair,
Not quite in vain!

OLD jealousies and hates again may flare
Into a sudden fury here and there,
And diplomats may fence and disagree,
But they who fought and died so splendidly
Died, in that mighty conflict, "Over There,"
Not quite in vain!

SATURDAY
The End of His Ministry in the Flesh

"And he rolled a stone against the door of the tomb." Mark 16:46.

Read Mark 15:42-47.

"It is a paradox of Christianity that to gain one must go slow."

MEDITATION: We cannot know all of God's plan, but we can know enough to live fruitful lives and we may have faith enough to be sure of his eternal companionship.

HYMN: Jesus, Lover of my soul, Let me to thy bosom fly, While the nearer waters roll, While the tempest still is high. Hide me, O my Savior hide, Till the storm of life is past; Safe into the haven guide, O receive my soul at last.

PRAYER: O God, Author of the world's joy, Bearer of the world's pain, make us glad that we are men and that we have inherited the world's burden; deliver us from the luxury of cheap melancholy and, at the heart of all our troubles and sorrow, let unquenchable gladness dwell; through our Lord and Savior Jesus Christ. Amen.

PRENTICE FARMERS MET FRIDAY NIGHT

Meeting Held Under Auspices of Farm Bureau and I. A. A.—Membership Drive Is Showing Good Results

Representatives of the Morgan county Farm Bureau and the Illinois Agricultural association held a very successful meeting at Prentice Friday evening. The gathering was arranged by a committee consisting of John W. Graff, Edward W. Robertson and M. W. Mau.

Mr. Corbin talked to the farmers on the work of the Illinois Agricultural association in saving taxes to the citizens of the state, and especially to the farmer.

A meeting will be held this evening at the school house in Alexander. It is being arranged by B. E. Keenan. The drive for membership in the Farm Bureau and I. A. A. is progressing nicely and reports of teams are expected to show a substantial number of new members.

GARAGE CAUGHT FIRE

The early discovery of fire in the garage at the residence of C. F. Ehnie on West State street Friday night prevented serious loss. Neighbors noticed the roof of the garage was on fire and an alarm was sent in. Meanwhile Charles P. Thompson, whose home adjoins the Ehnie residence, pried open the garage door and an effort was made to remove the two cars.

Meanwhile firemen had arrived and by the use of the chemical the flames were extinguished. Sparks from the roof had fallen on one of the cars but the machine was not damaged.

was apparently happy, and it had
become the belief that the excel-
lent qualities and the devotion of
the young man had been well
placed.

He left home Wednesday morn-
ing without a word of discord,
coming to his work at the drain

Murrayville — Fine Program
Given.

The new I. O. O. F. hall in Mur-
rayville was dedicated in a fitting
manner Friday evening, the dedi-
catory program following the
serving of a banquet by members
of the Rebekah and Odd Fellow
organizations of Murrayville.

The banquet was served at
7 o'clock, more than two hundred
persons gathering about the ban-
quet tables. The banquet arrange-
ments were in charge of a com-
mittee including members of both
the Rebekah and I. O. O. F.
lodges as follows: From Rebek-
ahs, Mrs. Jessie Cain, Mrs. Min-
nie Mawson and Mrs. Susan Car-
lson; from I. O. O. F., R. D. Mas-
son and J. K. Fuller.

The menu was an elaborate
one, faultlessly served, and in-
cluded baked chicken, giblet
sauce, mashed potatoes, bread
and butter, corn pudding, spring
salad with Thousand Island dress-
ing, angel and devil's food cake,
ice cream and coffee.

The dedicatory address was de-
livered by Rev. C. S. McCollom,
of Cowden, formerly pastor of the
Murrayville M. E. church, and a
prominent Odd Fellow. The pro-
gram of the evening is given be-

One Method of Speed- ing Up the Solution of Our Building Problem

(B. F. Shaffer)

In previous articles the facts
relative to our building program
have been presented. The time
which will be required to re-
habilitate our school buildings
with our present rate of income
has been estimated at from twenty-
five to thirty years. In this
article I shall attempt to discuss
one method of speeding up the
solution of this problem; namely,
increased taxation.

The school law provides that a
Board of Education may cause to
be levied two per cent for educa-
tional purposes and seventy-five
hundredths of one per cent for
building purposes. In case it is
found that this does not produce
sufficient revenue to conduct the
schools the tax levy for school
purposes may be increased to as
much as three per cent for the
educational fund and one per cent
for the building fund, providing
the people of the district have
voted in favor of such an increase
in the levy at an election called
for this purpose.

If such a method of solution
were to be attempted by our dis-
trict the amount of money re-
ceived for the building fund each
year would be increased by ap-
proximately \$16,000. With the
increased revenue for the general
fund we would be able to transfer
an item of our budget, which may
be paid out of either fund, from
the building fund, out of which
it is now paid, to the general
fund. The amount of this item
is approximately \$10,000. Thus
you can readily see that thru the
increased tax rate money could
be accumulated for building pur-
poses at the rate of \$26,000 per
year.

In view of the fact that we are
paying off our bonded indebted-
ness at the rate of \$15,000 per
year, it is evident that our bond-
ing power increases by this
amount each succeeding year.
Adding the \$26,000 which could
be appropriated each year from
the building fund to the \$15,000
bonding power which is added
each year, it is clear that our re-
sources for the construction of
school buildings would accumu-
late at the rate of \$41,000 per
year.

At this rate of accumulation we
could begin the construction of
our first building in about three
years. The other buildings could
be constructed at the rate of one
every four or five years, depend-
ing upon the cost of such build-
ings. Thus our building program
period of fifteen or sixteen years
as compared with twenty-five or
thirty years if we continue to
operate at our present rate of
income. It must be understood,
however, that this conclusion
presupposes the floating of a bond
issue for each building con-
structed, thereby keeping the dis-
trict bonded to the limit thru
the entire program.

ONE OF THE WORLD'S BEST VAUDEVILLE ACTS

Harvey's Greater Minstrels a
household word to lovers of min-
strelsy and all theater goers
from coast to coast and for years
known to always number among
its many stars one that can be
safely announced as one of the
world's greatest has at last se-
cured one that is the peer of all
in his line, Johnny Woods the
Ebony King of ventriloquists.

The vaudeville section of Har-
vey's Minstrels is composed of
the greatest artists in their class
and each act different and con-
sists of stars from every section
of the world and each act
stronger than those preceding.
It was some problem to find some-
thing entirely new to minstrelsy
that could follow this galaxy of
star acts when Johnny Wood
again comes to the front and fol-
lowing this wonderful program
and carrying his audience with
him thru a hundred laughs and
readily stamping himself as a
marvel of talent and a heavy
weight champion not only the
king of ventriloquists but the
jolly round smiling prince of
good fellows and champion gloom
dispeller of all time.

Mr. Woods is also very much
in evidence in the first of the
program and easily carries his
audience with him and keeps his
audience in good humor and
quickly kills that old saying, "No-
body loves a fat man."

See Johnny Wood and laugh
with him and grow fat on his
good humor and also satisfy your-
self that you have seen one of
the real stars of the minstrel
world.

OLYMPIC COMMITTEE TO BE INCREASED

NEW YORK, March 30.—Plans for increasing the membership of the American Olympic committee from 500 to 1,000 and details of this country's program for participation in the 1924 international games at Paris will be perfected at a meeting of the executive committee of the American Olympic committee in New York April 18, it was announced tonight.

The committee it was said, also will formally request all national sports governing organizations to discourage international competition in athletics this year and concentrate upon development of talent for the Olympic games. This step was forecast several days ago by William C. Prout of Boston, president of the amateur Athletic Union, who advised against acceptance of invitations for American track and field stars to compete in international meets scheduled this summer in Sweden and France.

The calendar of events for the eighth Olympic, made public today reveals that competition will begin in January 1924, with a close on July 27. Track and field events, the climax of the games, will begin July 5.

Members and friends of Central Christian Church, Ring or send Memorial Easter Lily to the church Saturday.

WINCHESTER

Winchester, March 29.—Julius Euerkin of Quincy was a business visitor in Winchester Wednesday and Thursday.

Mrs. Lottie Emerick, who has been very ill at her country home near here, is now improving.

Wednesday, April 4, is to be a big day in Winchester, as on that day the car and other gifts in the merchants gift campaign are to be awarded.

Members of the B. Y. P. U. of the Baptist church gave a social in the church basement Friday evening. Games and games were enjoyed and at a late hour refreshments were served. The for the event.

Miss Mary Elizabeth Roark and her guests, Miss Bly of Hendersonville, N. C., and Miss Moore of Hopkinsville, Ky., who are attending I. W. C. in Jacksonville, are guests of Miss Roark's parents, Mr. and Mrs. Joseph Roark west of town.

Quite a number of local Odd Fellows attended the supper given by the Murrayville lodge Friday evening.

Floyd Wallace and Dan Smith of Illinois University arrived at home Wednesday for the Easter vacation.

Miss Josephine Balsley of Galesburg arrived Friday afternoon to visit relatives and friends here.

Charles Smith of Havana who has been visiting his brothers, Dan T. Smith and S. G. Smith and Dee Smith, and members of their families, returned Friday to his home. He was accompanied to Jacksonville S. G. and Warren Smith.

BLIAZARD CRIPPLES TRANSPORTATION

St. Johns, N. F., March 30.—The blizzard that swept New Foundland yesterday had subsided today, leaving transportation by land and sea crippled for the time. Not a wheel turned today on the New Foundland railroad. Mail steamers plying between Canadian ports and St. Johns were held fast in the ice.

MINISTER STRICKEN DURING SERVICES

St. Paul, Minn., March 30.—The Rev. Frederick Fredericksen, 59, pastor of Hamline Methodist Episcopal church here, was stricken with heart disease late today while a Good Friday service was in progress in his church. He died within a few minutes.

PILOTS TRYING FOR RECORD ARE FORCED TO DESCEND

Dayton, March 31.—Lieutenants John A. MacReady and Oakley, piloting the army transport T-2 landed at Wilbur Wright Field at 12:05 o'clock this (Saturday) morning when their engine developed serious trouble. They had covered 527 miles and flown seven hours and fifty-three minutes of what was to have been an endurance flight.

Cannes, France, March 30.—Mrs. Molla Blumstedt Mallory today ended her tennis campaign on the Riviera by again meeting with defeat—this time in the mixed doubles. Paired with Baron d'Almeida, the American champion lost to Mrs. Satterthwaite and Jack Hillyard, 5-7, 5-7.

Mrs. F. W. Reuter will return to her home in St. Louis this morning after a visit of almost two weeks at the home of her mother, Mrs. Charles Glenn in Franklin.

When You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into "flu" or pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmother's mustard plaster without the blister.

Musterole is a clean white ointment made of oil of mustard and other home simples. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion, pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of all sorts. Seldom fails to deliver results. 35c and 65c jars and tubes; hospital size, \$3.00.

PRISONER SAYS HE CAN SOLVE N. Y. BOMBING

Herbert Wilson, Convicted Murderer, Makes Statement

LOS ANGELES, Cal., March 30.—Herbert Wilson, former evangelist alleged mail robber and convicted murderer has told postal inspectors he can solve the bombing of the J. Pierpont Morgan offices in Wall street New York, Sept. 17, 1920, the Los Angeles Times will state tomorrow.

The explosive which filled the bomb which killed thirty-nine persons and destroyed property valued at many thousands of dollars was manufactured by Wilson, according to his own admissions, the Times will state, and sold by him to a man who has been charged with guilty knowledge of the crime.

Will Make Investigation

New York, March 30.—W. J. Burns, Detective Agency, employees indicated tonight that the founder of the organization, now director of the bureau of investigation of the federal department of justice was on his way to investigate the Los Angeles Times report that Herbert Wilson, nationally known criminal had confessed to having helped make the bomb used in the disastrous Wall street explosion of 30 months ago.

Mr. Burns left this city nearly three weeks ago on a mysterious mission. His wife said he was so. The head of a criminal department of the detective agency who formerly was with the department of justice said, however, that Mr. Burns had gone south and then west and probably now was on his way to Los Angeles.

William J. Burns Located

Miami, Fla., March 30.—William J. Burns, director of the bureau of investigation of the department of justice was located tonight at a hotel here. Mr. Burns arrived here today from Nassau. It is expected he will issue a statement shortly relative to the alleged confession made by Herbert Wilson in Los Angeles that he had helped to make a bomb used in the Wall street explosion.

Children's Party at School for Blind

The children in the kindergarten classes at the School for the Blind enjoyed an Easter party Friday afternoon at the school. Games of various kinds were played and a part of the afternoon was given over to coloring eggs for Easter. Delicious refreshments were served during the afternoon.

Party is Given at School for Deaf

Miss Aileen Patton entertained a number of friends at the School for the Deaf Friday evening, the party being in the nature of a farewell party. Miss Patton is to leave soon for Galesburg, where she will take a position with an underwriters insurance company. She has made her home in this city for a number of years and has many friends here, all of whom will regret to have her leave. Several hours were very pleasantly spent and

The room in which the social was held was attractively decorated. The decorations committee consisted of Arthur O. DeGraft, chairman; Miss Mary Nevins, Miss Ethel Stewart, John Stewart and Truman Smith.

The social committee kept the young people busy during the entire evening with entertainment. Miss Elinor Ludwig, as chairman of this committee was

refreshments were served during the evening.

South Side Circle Met

At the regular meeting of the South Side Circle held Friday afternoon at the home of Mrs. Ollie Parker on West State street, a musical program was given in place of the usual literary numbers. The meeting was quite largely attended and the afternoon proved most enjoyable. The program given during the afternoon included the following:

Vocal solo, "Adoration"—Miss Louise Struck.
Piano numbers, March Military (Schubert-Tausig); Vene-lenne Barcarolle (Godard)—Mr. Frank Collins.
Vocal solos, "Homage," (Del Rigo); "Daddy's Sweetheart," (Lehman)—Miss Katharine Park-er.

Vocal numbers, "The Blind Ploughman," "Pal O' Mine"—Ollie Parker.
Piano solo, "Juba Dance"—Frank Collins.
Mr. Collins also acted as accompanist for the vocalists. After the program there was a pleasant social time and the hostess served refreshments.

Busy Nine Club is Entertained

Mrs. Grover C. Tarrt very pleasantly entertained the members of the Busy Nine Embroidery club yesterday afternoon at her home, 1123 South East street. The first part of the afternoon was spent in the work of the club, and was followed with a social hour, during which the hostess served delicious refreshments. The refreshments and decorations were in keeping with the Easter season, the color scheme being yellow and white.

The club was honored with the presence of the following guests: Mrs. Terriman and daughter of Springfield, Mrs. Dan Dickerson and daughter, and Mrs. C. A. Sheppard. Each guest present received a favor.

UPWARD GOER NEW HOTEL STOCK FUND

Total Reported Friday at Conference of Workers is \$174,100—Special Effort Will be Made Today and Monday to Reach the Goal.

The workers in the new hotel campaign kept busy on the job yesterday with the result that the total of stock subscriptions last night was \$174,100. Work is to continue today and Monday. The captains, workers and others will meet at the Chamber of Commerce rooms Monday evening at 6 o'clock for supper, when it is expected that further substantial subscriptions will be reported and the campaign will at least be very near the finish.

More allotments were made of prospects as Chairman Harrison King read names. Dr. F. M. Rule, who is one of the enthusiastically supporting for the hotel project, said that he fully realized the need Jacksonville has for a modern hotel building. He spoke of the esthetic value of such a building to the community. In addition to its business worth and said that the building would have its influence upon the architecture and upon the life of the city.

M. F. Dunlap commented upon the fine co-operation that has been apparent in the hotel project, mentioning that the proprietors of the principal hotels were active workers in their endeavor to help along the new hotel movement, evidently taking no thought of their own personal interests.

Incidents of solicitation work were told by R. V. Rowe, J. C. Lukeman, Henry J. Rodgers, H. E. Wheeler and John W. Larson. In reporting subscriptions for the team of which he is a member John W. Larson mentioned the fact that every employee in the Farrell State bank is now a subscriber to the hotel fund, every officer and director of the bank having been listed among the earlier subscribers.

Some suggestions with reference to reconvening work were made by Henry Frisch, chairman of the general executive committee, and adjournment was taken until Monday.

STATE ISSUES DATA ON OIL AND GAS FIELD

Records of Various Wells Drilled Here Put Into Pamphlet Form by Geological Survey.

If Morgan county men did not find oil in paying quantities in the field northeast of Jacksonville, their experimental work at least resulted in the publication of an interesting bulletin by the state geological survey. This pamphlet of thirty pages is designated "Oil and Gas Development in the vicinity of Jacksonville." It is written and compiled by D. M. Colington of the department and includes "Historical Review of the Field," "Logs of the Wells," "A Discussion of the Relation of the Field to the Unconformity of the Mississippi," "Geological Structure and Production Possibilities," "Neighboring Structural Possibilities," and "The Conclusion of the Survey."

There are numerous illuminations and plates to make clear the whole situation. The conclusion of the survey based upon the borings of the wells are summed up in this paragraph:

Although drilling costs are not great, due to the shallowness of the pay horizon the production at best is only light. In general, the extent of the production may be expected to cover an area of several square miles, but because of the sand, the risk of obtaining dry holes must be overlooked.

It is interesting to note that special space is given to the Jacksonville community well which was drilled to a depth of 1,390 feet. Five pages of data relative to this well are presented. In the historical review Mr. Colington presented the following facts:

Thirty-Five Wells Drilled.

"An area of a few square miles about six miles east of Jacksonville, has in the past produced small quantities of oil and supplied gas for local consumption. In the spring of 1922 Mr. Frank Byrnes of Jacksonville, who has always fostered the interest of the community in the development of this area, was instrumental in leasing a block of acreage to Messrs. Rhodes and Moorehead. After they began drilling operations other operators became interested and a general drilling program was undertaken.

"In the past, approximately 35 wells had been drilled to a shallow pay horizon of about 300 feet, believed to be at the base of the Pennsylvanian or 'Coal Measures' rocks. No detailed logs had been kept and those available were very unsatisfactory for geological correlation. The first new well was located close to one of the best of the original wells in the cen. S. 1 SW. 1 NE. 1 sec. 8, T. 15 N., R. 9 W., which is reported still able to produce about a barrel a day. The new well was considered likely to be a small producer, but was abandoned because the casing fell back into the hole after the well was shot. Another well was drilled at the same location and was reported as being a 5-barrel well.

"In response to numerous inquiries regarding deeper pay possibilities in this locality the State Geological Survey advised the operators that two or three formations known to be oil bearing in other places in the state, would be found to a depth of 1500 feet in this area, they would not be expected to contain commercial quantities of oil unless a suitable structure of folding of the rocks was present. A deep test would not be advisable unless correlation of some persistent bed recognized in tests to the shallow pay demonstrated the presence of favorable conditions, as for example an appreciable dome or a reversal of dip from the regional east dip, providing a closed structure. It was suggested that further tests, whether or not producing from the shallow horizon at the base of the Pennsylvanian, be drilled into the Mississippian, so that correlation might be made on a more uniformly recognizable bed, and also because the Mississippian structure is approximately parallel with the underlying formations in which the oil might be expected, while the Pennsylvanian strata are often not parallel with the older formations.

"The Five Star Petroleum Company became interested in the area and further shallow drilling resulted in the finding of a gas well in the cen. NW. 1 NW. 1 SE. 1 sec. 8, T. 15 N., R. 9 W., and a dry hole with a reported showing, located in the SE. corner, NE. 1 SW. 1 NE. 1 sec. 8, T. 15 N., R. 9 W. Mr. Irwin also took up acreage, slightly deepened an old gas well at the cen. W. 1 SE. 1 SW. 1 sec. 4, T. 15 N., R. 9 W., and drilled two shallow gas wells, one in NE. sec. 10, and one in NE. 1 sec. 3 of the same township. These two wells are believed to produce from the glacial drift rather than from the underlying consolidated rocks.

"Records Unsatisfactory. The available records of the old wells were unsatisfactory and few had gone deeper than the first shallow pay horizon. No levels had been run to determine the surface elevation of those wells of which some record was available. The new wells drilled to the pay horizon, or deeper, covered such a small area that there was still lacking the necessary information to prove or disprove the presence of an appreciable closed structure. Notwithstanding this, a deep test was decided on by Mr. Rhodes and associates. Without anything to guide the choice of its location beyond the production in the pay, it was considered that owing to the regional dip being to the east, any structure represented in the underlying formations similar to structure in the shallow sand would probably be slightly offset to the west. A deep test located in the cen. S. 1 SE. 1 NW.

1 sec. 8, T. 15 N., R. 9 W. was accordingly begun by a group of the business men of Jacksonville.

"At this time it was possible for the Survey to investigate the area with a view to giving those interested the help and guidance possible from a proper interpretation of the data available, and therefore obtain the most economical method of furthering the proper exploration of the area in search for more and better production. The writer and party returning to headquarters from the field work of the regular season's program in the western part of the state were unable to visit this area in November. As no outcrops in the area were visible due to the low topographic relief of the area, all structural information was dependent upon subsurface records. Levels were run to all the old and new wells of which some record was available, although in most cases the only information obtainable was the depth to the 'rock' or depth to the pay horizon. It was evident that a close study and correlation of these depths together with the detailed logs of the recent wells represented the only data from which to attempt a detailed interpretation of the existing geological conditions."

Further Conclusions.

In judging the commercial advisability of further drilling to the shallow pay in this area, the operator could expect wells averaging as those already drilled on the more favorable territory. It should be remembered that some risk of a dry hole is always present and that the amount of production can not be expected to be more than light, but that where one well can not be pumped at a profit, a number of wells of equal size pumped from a common power source may ultimately be profitable. The life and economic limit of the well, depending on the price of crude oil, the present worth of the ultimate production, and the drilling cost, are all factors that will affect the determination of commercial success in drilling this shallow field.

More extensive shallow drilling, particularly if continued to a persistent horizon in the Mississippian, such as the top of the Keokuk limestone, may indicate a favorable place for another deep test to the "Trenton."

Exploration of the lower pay horizons is justified in such an area as this, where for a width of six miles the strata have only a net rise of 30 feet. It has possibilities as a terrace and better chances for production if any closure is present. Intelligent testing by means of shallow holes to the top or base of the Keokuk-Burlington might well be made to determine whether the highest part of the terrace in the Mississippian and underlying formations is directly under the "structural high" in the Pennsylvanian strata and the old Mississippian surface in secs. 8, 16, 20, 21 and 29, as outlined in figure 1, or whether the higher portion of the terrace in the Mississippian and lower strata may not be further to the west.

C. C. ARMSTRONG DIES AT GIRARD, AGED 86

Father of Local Druggist is Dead
—Was Veteran Druggist of Home City and Associated in Business Here.

Byron Armstrong of this city was called to Girard Friday morning on account of the death of his father C. C. Armstrong. Mr. Armstrong was a pioneer resident and veteran druggist of Girard, was well known in this city having visited here many times.

He was eighty-six years of age at the time of his death, and had for many years been retired from active business. He was for more than a score of years proprietor of the only drug store in Girard.

Mr. Armstrong's wife preceded him in death about two years ago. He is survived by two sons, Byron Armstrong of this city, and Paul Armstrong of Girard, and one daughter. No announcement of funeral arrangements has been received.

Mr. Armstrong was many years ago associated with his son in the first store opened by Byron Armstrong in Jacksonville on the southwest corner of the square.

PRE-EASTER SERVICES AT CHRISTIAN CHURCH

The Pre-Easter services at the Central Christian church have been well attended and unusual interest manifested. There will be several special features in the program this evening. The subject of the sermon by Rev. M. L. Pontius will be "The Highest Point in Human Experience." A large number of people have indicated their desire to unite with the church at the Sunday morning or evening service. A special feature of the Easter program will be a Sunrise prayer meeting held in the auditorium of the church at 6:30 Sunday morning. Mr. Pontius will be the leader. The subject will be "My Faith in the Resurrection." Sunday evening at 7:30 the following program of Easter music will be rendered by the quartet:

Anthem—"Easter Bells".....Otis Solo—"Consider the Lilies".....Liddle
.....Scott
Madame Colard.
Solo—"Messenger of Peace".....Liddle
Mr. C. E. Drummond.
Duet—"O Divine Redeemer".....Gounod
Madame Colard and Mrs. E. C. Ellis.

Legion Fund to Decorate Graves Grows

INDIANAPOLIS, Ind. — With the close of the campaign eight weeks away, one-tenth of the amount necessary has been raised for the graves endowment fund of the American Legion, which is to provide for the perpetual decoration of the resting place of American dead in Europe. Legion officials are confident as to the success of the fund, believing that organized campaigns are planned by posts throughout the country and that large and substantial donations will be received within the next three weeks.

The response to the request has been nation wide. A day's mail at Legion headquarters shows letters from Maine to Washington, from Minnesota to the tip of Florida, with not a few from foreign countries. Contributions received range from fifty cents to sums of four figures. One post of the Legion in Grand Rapids, Mich., in conjunction with a local newspaper has successfully waged a campaign that netted \$1,000 for the fund, and another, the Advertising Men's post of New York, has pledged to raise \$10,000. Posts in the larger centers will undertake city wide campaigns within the next ten days.

Without exception the privilege of donation to this fund seems to be regarded as an honor. Many of the donors are disabled men themselves (one ward of a hospital caring for veterans sent in a goodly sum from its thirty patients) all of them interested in the fact that perpetual care will be given to the graves of those who died beside them, while they, stricken in battle, were unable to carry on. Dozens of letters are received from mothers whose sons sleep in France.

"Take this dollar from me for those graves in France," one mother wrote. "My boy is at rest, there, and I want to help." She refused to sign herself other than as "A Mother." Others express themselves as adding their mite so that the grave of some other lad than her own will be covered with flowers on Memorial Day.

A young author, who recently received a check from a veterans' magazine for a story of his experience in the trenches, wrote, "Take this, it belongs to the dead of Flanders Fields, it was for them I wrote."

While the Legion regards this fund as peculiarly its own, and the names of members of the organization and of the Auxiliary compose the greater portion of the list of donors, there has been a splendid return from those outside of the organization, and many contributions of this character are included among those received by the national treasurer of the American Legion at Indianapolis.

PEOPLES NOTICE IT. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

Thin? Run-down? Sure Way to Get Right Weight

Increase Your Red-Blood-Cells. That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance companies refuse to insure a great many men because they are under weight? Simply because to be under weight

often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S., since 1883, has meant to thousands of underweight men and women, a plus in their strength. Hollow cheeks fill out. You stop being a canny-looking. You inspire confidence. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them. Ladies and gentlemen, a peaky, bony face doesn't make you look very important or pretty, does it? Take S. S. S. It contains only pure vegetable medicinal ingredients. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

Market Report

By The Associated Press

DUNN'S REPORT WILL SAY TODAY

NEW YORK, March 30.—Dunn's tomorrow will say:—"The sudden recurrence of cold weather at different points this week temporarily checked spring retail trade and this is a normally quiet period in some wholesale branches. Noticeable activity however, continues at many manufacturing plants with practically full operations in various instances and March closing with high record outputs. It is significant of the pronounced industrial revival that the leading steel interest is now running at better than a 90 per cent rate against about 55 per cent a year ago and that the number of pig iron furnaces at work is increasing steadily. Pressure of demand in this quarter has recently slackened but only after a buying movement on which requirements were covered for several months ahead, and not a few contracts are not being deferred because of a disinclination to commit themselves beyond the end of the half year."

Ride on Springs Walk in Cantilevers

Primitive people rode in ox-carts—heavy, rigid, and without springs. Modern love of comfort and speed brought about the careful motor car, traveling on springs so resilient and balanced that we seem almost to ride through the air—the modern "Wings of Mercury."

To a lesser degree, our feet in daily life should act like the springs of the motor car. Nature composed the human foot of resilient, flexible arches to absorb the body shocks. Nothing rigid about your foot as Nature made it.

In the words of a doctor, "The foot is a cantilever spring."

The Flexible Arch

Does the arch of your shoe correspond with the arch of your foot in flexibility? Change to Cantilever Shoes. There is no concealed rigid metal embedded in the shank of Cantilever Shoes as in all ordinary shoes. They flex with your foot when you walk; permit the muscles to exercise and strengthen; allow free circulation; give room for all the toes. They give you complete comfort and trim appearance.

Wear the "Wings of Mercury." That means: Wear Cantilever Shoes. Sold in Jacksonville only by us.

Church on Easter

The Pilgrim Fathers and the New Jacksonville Hotel

(By Joseph R. Harker.)

It is interesting to compare the civic spirit of Jacksonville for the last five years with the spirit and co-operative purpose and courage of the men who sailed to America in the Mayflower, who laid the foundations of one of the best governments in the world.

What manner of men these were and the ideals they cherished are described by their pastor, John Robinson:

"The people," he said, "are knit together as one band in a most sacred covenant, by virtue whereof we hold ourselves strictly tied to all care of each other's good, and of the whole by everyone, and so mutually. It is not with us as with men whom small things can discourage."

Now doesn't that describe the new spirit of Jacksonville in the last five years? It was because we felt ourselves "strictly tied to all care of each other's good" that we got together and made the new water-works system. How that has put spirit and life not only into every department of the city but into every resident of Jacksonville! It was the same spirit that got us together to abandon our old divided system of public schools by separate wards so that we elected a school board, representing the whole city as a unit, which made possible our new High School, the pride of the city, and that gives assurance of the most adequate education for its children for all time to come.

It was this that brought about civic administration which gave us a mayor and a city council united as never before, both among themselves and with every interest of the whole community. It made possible a new Chamber of Commerce such as few cities the size of Jacksonville can boast. It has proved to be the kind, heart and soul of every enterprise possible for the good of Jacksonville. It has brought about better roads and better paved streets. It has restored a spirit of civic pride and co-operation that has put through the campaigns for Illinois College and for the hospitals and that assurance of every good thing and wise thing that can be suggested for the good of Jacksonville, both now and in the years to come. It has given us a motto in which we all believe: "Anything and everything for the good of Jacksonville."

Every day in every way the co-operative spirit in Jacksonville is getting stronger and stronger. The intense interest in the new hotel is so far the climax of this spirit. We thought we were doing a great thing four years ago when in a week or so we secured subscriptions for water certificates for \$120,000. Now in less than two weeks we are going to secure for more than \$200,000 for the new Jacksonville hotel.

Nothing is more needed than a new up-to-date hotel. On account of this co-operative spirit Jacksonville has been making friends in the last five years by the scores and by the hundreds. Travelling men that were indifferent are now enthusiastic. Writers like Will Irwin, who speak for the whole nation, just need to see Jacksonville to praise it. Hundreds of people are waiting to come to see us and spend a day or several days with us, if we could assure them of comfortable and pleasant entertainment. They will come in surprising numbers when we have an attractive place for them to stay and rest.

There will be a larger attendance at the college commencement because Jacksonville, thru its schools, has thousands of former students and friends who are still greatly interested and becoming more so, in the schools they attended and who will be glad to come back. With a new hotel we can invite conventions and institutes and be proud of ourselves and make sure the satisfaction of our visitors. In short it will open up beyond anything we can now think possible, avenues of enlargement and enrichment of our city.

The old lesson of the spirit of the Pilgrim fathers is working again in Jacksonville. Let us more and more "hold ourselves to be strictly tied to all care of each other's good, and of the whole by everyone, and so mutually." Let it be more and more true of Jacksonville as it was true of these dauntless old pilgrims that "it is not with us as with men whom small things can discourage."

Sixty-five million Americans, professing membership in the churches or Sunday schools of the nation, will go to church services tomorrow—Easter Sunday. This leaves forty-five millions unaccounted for.

Of these forty-five millions—just a little less than half the population of the country—comparatively few are agnostics or atheists. Most of them are people who through carelessness, or indifference, or diversion, have neglected the religious side of their nature.

Easter commemorates the resurrection of Christ from the sepulchre. It comes in the spring, when everywhere about us the spirit of resurrection is symbolized by nature. It should suggest to every one of us that this is the time for the resurrection of our spiritual natures.

The Christian church is the open door to realization of resurrection. It stands waiting to develop us spiritually. This would be a far better world to live in if all of us were attending church regularly.

Go to church on Easter. You'll feel a lot better if you do. Your soul needs food, too, you must know. Satisfy your spiritual hunger. Go to church on Easter.

By Dr. Harry Emerson Fosdick
Pastor, First Presbyterian Church, New York
Go to church on Easter!

This is not the whole of Christianity—not by the long sea-mile! Being a Christian extends through seven days every week, twelve months a year, and it affects a man's whole life, from his secret thoughts to his business methods and his citizenship.

Because the finest elements in our American life came from the influence of Jesus Christ, and Easter is the festival of his victory. Because civilization's deepest need is the triumph of real Christianity and Easter is Christianity's rallying-day.

Because this is one of the most spiritually restless generations in human history and the message of Easter—a victorious spiritual life which can conquer trouble, sin and death—is the message that modern men and women need.

Because you yourself have the old human needs for faith in God, inward power to carry on, and hope of life eternal, and Easter should have a personal message for you.

Go to church on Easter!

By Rt. Rev. Joseph Schrems
Bishop of Catholic Diocese of Cleveland
"Christ is risen from the dead. Alleluia! Alleluia!"

The Christian world rejoices. It steps out of Lenten season of penance and self-denial into new spiritual life of supernatural grace and joy.

Is YOUR soul attuned to the spirit of Easter? Is it dead or dormant, or is it vibrant with the glorious realization of harmony with the risen Savior? Examine your conscience; you will find the answer.

You cannot find happiness here or hereafter without religion. You cannot be at heart indifferent to your Creator; you cannot deceive yourself that you can do without Him.

In the midst of life we walk in death; no man knows the day or the hour, but none can gainsay that he cares.

You are entitled to the comfort, the inspiration, the salvation of religion. Aye, you need it for the daily problems of life, and you need it even more for the important hour of your death.

Accept the grace that God offers you through His Church.
Go to church on Easter.

MORE PRESS PRAISE FOR GRACE WOOD JESS

The Portland Oregonian of recent date makes most complimentary comment on a concert given there by Mrs. Grace Wood Jess. The review under the headline "Art and Enchantment—Is Tragedy and Inimitable Humors," makes this comment: "Grace Wood-Jess, diseuse, is a whole opera company in herself! No one who heard her recital yesterday afternoon at the Woman's club will deny this. She enchanted her audience with her beautiful art from the moment when, with a rich silken rustle, she swept to the stage attired in her old-time costume, to the last note of her French folk song of 'The Well.' Miss Wood-Jess, who follows in the rarely-trodden path to Mme. Yvette Guilbert, has surely found her vocation in life.

"She uses a fleshing palette of colorful and varied art. She is a tragedienne, a painter of sweet and charming sentiment, and an inimitable humorist. Tragically, by the way, appears to be less rare in histrionic art, than in this rare art Miss Wood-Jess excels. The first strong touch of it came with her singing of 'An Old Maid's Song,' which was delightfully funny and kept the audience smiling 'out loud.'

"Not the least of the pleasure of the recital was the thread of easy conversational explanation of some of the more obscure songs, and the intimate history of others. The old English ballad, 'The Gypsy Bride' and the folk songs from the Kentucky mountains, were sung with the full flavor of their time and place; the negro spirituals with a more emotional mood than is generally accorded them by most singers."

people have been frequent summer visitors.

Although expecting great beauty in Grand Canyon, Dr. Rammelkamp said that he found that not half had been told, for much of the grandeur there is beyond description. Dr. Rammelkamp in referring to the educational facilities of California said that the colleges, universities and public school buildings there are of a type to correctly voice the high aspirations of the people for the best that can be obtained in an educational way.

The speaker said that he was aware that a great many other Jacksonville people had made a trip to California and that many facts he might mention were already familiar to many of his auditors.

CHILDREN WILL HAVE DEPARTMENT AT FAIR

Association Votes \$400 to New Feature of Coming Exhibition—Increase Beef Cattle and Hog Department—Meeting Last Night Well Attended.

The entire situation in the several departments of the coming Morgan county fair next summer was thoroughly canvassed Friday night as a well attended meeting of officials and heads of departments of the association. The meeting was in charge of the president, J. L. Henry and held until a late hour, on account of the large amount of business to be transacted.

The main action taken was the creation of a children's department, under the supervision of Mrs. W. S. Jones, and the appropriation of \$400 to this department. This new branch of the work will be made up of children's exhibits in flowers, photography, fancy work, canning, can-

dy making, and all other work done by children. It is expected to be a school and class making in connection with the department. It is expected each township will have one representative children in these classes. Professional instructors will be gaged for this work.

L. F. Jordan, who has been editing the books of the fair, reported them in shape, and they were turned to the new treasurer, H. A. Jones. A budget was submitted for each department and approved. It was voted to increase premiums in the beef cattle department \$300 being added to the classes were added in department.
